More than a Dream Teen Pregnancy Prevention for Latino Youth is a collaboration between Education Development Center, the University of Michigan School of Nursing, and the League of United Latin American Citizens’ National Educational Service Centers (LNESC), to find developmentally appropriate and culturally and linguistically relevant youth and parent interventions that address sexual health and pregnancy prevention. The project will evaluate the youth intervention Cuidate(Take Care of Yourself), the parent intervention Salud y éxito(Health & Success), and a joint youth-parent program, Más que un sueño(More Than a Dream). Work will take place at 4LNESC sites: Albuquerque, NM, Colorado Springs, CO, El Paso, TX, and Kansas City, MO, with the goal of reducing sexual and other risk behaviors. Participants will be Latino adolescents ages 12-14, and their parents.

TITLE X FAMILY PLANNING SERVICES IN COLORADO iv

• Title X–supported centers provided contraceptive care to 47,177 women in Colorado in 2018.  
• Services at Title X-supported centers helped women avoid 11,500 unintended pregnancies, which would have resulted in 5,600 births and 4,100 abortions.
• By preventing sexually transmitted diseases, cervical cancer, and unplanned pregnancies, Title X-supported centers in Colorado saved $59.2 million in public funds in a single year.
• From FY 2010 to FY 2017, the amount of federal funding Colorado received for Title X decreased by $91,808, resulting in 14,957 fewer (22%) patients served.
• In 2017, prior to the new Title X rule, 73 clinics in Colorado received support from Title X. They included local health department clinics (39), federally qualified health centers (27), hospitals (4), family planning health centers (2), and other service sites (1).
• In August 2019, the new Title X rule went into effect, forcing some of Colorado’s Title X clinics to exit the program.
