TITLE X FAMILY PLANNING SERVICES IN VERMONT ^{iv}

- Title X–supported centers provided contraceptive care to 4,883 women in Vermont in 2019.⁵
- Services at Title X-supported centers helped women avoid 1,900 unintended pregnancies, which would have resulted in 900 births and 700 abortions.
- By preventing sexually transmitted diseases, cervical cancer, and unplanned pregnancies, Title X-supported centers in Vermont saved \$6.3 million in public funds in a single year.
- From FY 2010 to FY 2017, the amount of federal funding Vermont received for Title X decreased by \$55,180. During that time, 2,846 more patients (40%) were served.
- In 2017, prior to the new Title X rule, 10 clinics in Vermont received support from Title X, all of which were operated by Planned Parenthood.
- In August 2019, the new Title X rule went into effect, forcing Vermont’s sole Title X grantee to exit the program. As a result, the state has lost 100% of its Title X funds.
