

Meet our HBCU Student Ambassadors!

Power to Decide is proud to announce our 2023 HBCU Student Ambassadors for our new initiative to empower young adults through student-led peer education and support at Historically Black Colleges and Universities (HBCUs). This initiative also aims to advance a culture of reproductive well-being, an innovative framework centered on the belief that every person should have equitable access to the information, services, systems and support they need to have control over their bodies, and to make their own decisions related to sexuality and reproduction throughout their lives.
