For more information on all of these programs, see [Federal Funding Streams at a Glance](#).

Notes:

β Title X received \$50 million dollars in supplemental funding as part of the American Rescue Plan (P.L. 117-2), not tied to the fiscal year, to be available until expended.

^ A three-year extension of funding for these mandatory funding streams was attached to a bipartisan, bicameral appropriations deal to fund the government through the rest of FY2021.

* President Biden's FY 2024 budget proposal included a one-year extension of PREP. It did not include an extension of Title V SRAE.

All three continuing resolutions passed by Congress ([P.L. 118-15](#), [P.L. 118-22](#), [P.L. 118-35](#)) to temporarily fund discretionary government operations also contained short-term funding extensions of PREP and Title V SRAE.
