Power to Decide, the campaign to prevent unplanned pregnancy

We believe in young people. We believe in their dreams, the goals they set, the way they intend to live their lives. We believe that nothing should stand in their way. That's why we are **committed to ensuring that every young person has the power to decide** if, when, and under what circumstances to get pregnant. We are Power to Decide, the campaign to prevent unplanned pregnancy.

94% of adults agree that everyone should have the power to decide if, when, and under what circumstances to get pregnant, including:

Nine out of 10 adults agree that if young people have the power to decide when and under what circumstances to get pregnant, they have more opportunities and are better able to realize their full potential.

87% of adults agree with the statement: birth control gives me the power to decide my future.

87% of adults agree that everyone deserves the power to access the full range of birth control methods, no matter who they are, where they live, and what their economic status is.

Data presented here are drawn from a national web survey, written by Power to Decide and conducted using Google Surveys, September and October 2017. Interviews were conducted among 2,056 respondents who volunteered to participate in Google online surveys and polls, and data are subsequently weighted to reflect the demographic composition of men and women ages 18 and older who are internet users. Google's reports state a margin of error of +/- 2.1% at the 95% confidence level, which provides a helpful indication of the variability in these results; however, we note that because the sample is based on those who initially self-selected for participation, this estimate rests on a specific set of statistical assumptions about the selected sample, rather than the standard methodology for random probability sampling. Numbers may not sum to 100 due to rounding.
